

## Accord Healthcare UK 2017 Patient Organisation Disclosure Report

Patient organisations are defined as not-for-profit organisations which are patient focused and represent and/or support the needs of patients and/or caregivers. Patients and/or carers represent a majority of members in governing bodies.

In addition to supporting the activities of patient organisations, working with them can help Accord Healthcare UK have a better understanding of the specific needs of patients and how we can better support these needs.

The industry recognises that transparency is an important means of building and maintaining confidence. Accord Healthcare UK abides by the principles of The Association of the British Pharmaceutical Industry (ABPI) and in line with this, we must declare a list of patient organisations to which we provide financial support and/or significant indirect/non-financial support, including a description of the nature of the support and its monetary value.

Wherever possible, we confirm the description of the organisation, the activities and any funding received with the patient organisation.

The activity types you will find described are: Charitable Donation.

### The Pituitary Foundation

The Pituitary Foundation is a national support and information organisation for pituitary patients, their families, friends and carers.

2017 Charitable Donation, from Accord Healthcare UK to The Pituitary Foundation to enable The Pituitary Foundation to deliver the following:

- £9,188 to cover 40 Endocrine Specialist Nurse Helpline sessions
- £11,961 to cover 25% funding of the Information and Support Helpline

**Total funding from Accord Healthcare UK received by The Pituitary Foundation in 2017 = £21,149**

Following the transfer of funding Accord Healthcare UK had no further involvement and didn't receive anything from The Pituitary Foundation in return.
